

Poster Number	Poster Session	Poster Group	Topic	Poster Title	Presenter	Country
PP-001	Poster Session I	Group 1	Global Pediatric Neurosurgery	Pott's Puffy Tumor: An Illustrative Case Report	Abraham Ibarra De La Torre	Mexico
PP-002	Poster Session I	Group 1	Global Pediatric Neurosurgery	Alice in Wonderland Syndrome (ALSW): A Literature Review	Ana Monize Fonseca	Brazil
PP-003	Poster Session I	Group 1	Global Pediatric Neurosurgery	Impact of Varicella Vaccination on The Complication Acute Cerebellar Ataxia	Ana Monize Fonseca	Brazil
PP-004	Poster Session I	Group 1	Global Pediatric Neurosurgery	Autologous Bone Cranioplasty, single center experience and risks factors for resorption	Diego Fernando Velasco Sanchez	Argentina
PP-005	Poster Session I	Group 1	Global Pediatric Neurosurgery	How to become a pediatric neurosurgeon in Latin America: training opportunities, current status, and future challenges	Ricardo Santos De Oliveira	Colombia
PP-006	Poster Session I	Group 1	Global Pediatric Neurosurgery	Pediatric Brain Tumor Surveillance and Registries in Low- and Middle- Income Countries	Hannah Elizabeth Gilder	United States
PP-007	Poster Session I	Group 1	Global Pediatric Neurosurgery	Prospects and challenges of pediatric craniocerebral trauma related to accidental versus non-accidental trauma in Brazil: Systematic review	Iracema Araújo Estevão	Brazil
PP-008	Poster Session I	Group 1	Global Pediatric Neurosurgery	The NeuroKids Remote Presence Training Curriculum for Hydrocephalus and Spina Bifida: A Methods Report for a Scalable Model	Jacob Leopard	United States
PP-009	Poster Session I	Group 1	Global Pediatric Neurosurgery	Feasibility and Acceptability of Double Fortified Salt with Iodine and Folic Acid: Pilot Clinical Study	Jeffrey Parker Blount	United States
PP-010	Poster Session I	Group 1	Global Pediatric Neurosurgery	The Semi-Sitting Position in Pediatric Neurosurgery – Pearls and Pitfalls of a 13-Years' Experience	Joachim Manfred Karl Oertel	Germany
PP-011	Poster Session I	Group 1	Global Pediatric Neurosurgery	Hydrocephalus experience at a major neurosurgical referral center in Ghana	Joseline Haizel Cobbina	United States
PP-012	Poster Session I	Group 1	Global Pediatric Neurosurgery	Posterior fossa Durptomy- significance of occipital sinus	Manas Panigrahi	India
PP-013	Poster Session I	Group 1	Global Pediatric Neurosurgery	Biparietal Fragmentation with Dural Plasty as the Last Line of Treatment in Idiopathic Intracranial Hypertension. Case Report	Maria Eugenia Badaloni	Argentina
PP-014	Poster Session I	Group 1	Global Pediatric Neurosurgery	Ventriculoperitoneal Shunt Dysfunction in Children with Constipation	Nazar Mohammed	United Kingdom
PP-015	Poster Session I	Group 1	Global Pediatric Neurosurgery	Epilepsy and Its Surgical Management in LMICs, Where are We Standing? The Scenario, Scope and Challenges	Noor Ul Huda Maria	Pakistan
PP-016	Poster Session I	Group 1	Global Pediatric Neurosurgery	Surgical management of neurofibromatosis type 1 - related orthopedics pathology	Polina Ochirova	Russia
PP-017	Poster Session I	Group 1	Global Pediatric Neurosurgery	Surgical management of spinal muscular atrophy - related orthopedics pathology	Polina Ochirova	Russia
PP-018	Poster Session I	Group 1	Global Pediatric Neurosurgery	Abusive head trauma, laws and protocols in a south american country	Ramiro Jose Del Rio	Argentina
PP-019	Poster Session I	Group 1	Global Pediatric Neurosurgery	Supratentorial brain tumors in infants - symptomatology and postoperative outcomes	Ryszard Sordyl	Poland
PP-020	Poster Session I	Group 1	Global Pediatric Neurosurgery	Sacral extradural arachnoid cyst a neonate in Sudan September. 2022: A case report	Safa Aboush	Sudan
PP-021	Poster Session I	Group 1	Global Pediatric Neurosurgery	Transnasal Endoscopic Surgery in the Pediatric Patient: Experience at Institute of Neurosurgery Asenjo	Samuel Alejandro Valenzuela	Chile
PP-022	Poster Session I	Group 1	Global Pediatric Neurosurgery	Management of Hydrocephalus in Posterior Fossa Tumors in Pediatrics	Yosimar Salomón Coasaca Tito	Peru
PP-023	Poster Session I	Group 1	Global Pediatric Neurosurgery	Transforming Possibilities: The Power of Adaptive Technology for Children with Disabilities	Zulma Tovar Spinoza	United States
PP-024	Poster Session I	Group 1	Hydrocephalus and NeuroEndoscopy	Endonasal endoscopy in paediatrics – experience from our institution	Atul Tyagi	United Kingdom
PP-025	Poster Session I	Group 1	Hydrocephalus and NeuroEndoscopy	The hardware management in shunt infection: a comparative study	Alexandre Varella Giannetti	Brazil
PP-026	Poster Session I	Group 1	Hydrocephalus and NeuroEndoscopy	An evaluation of success factors related to endoscopic third ventriculostomy in hydrocephalus associated to myelomeningocele	Alexandre Varella Giannetti	Brazil
PP-027	Poster Session I	Group 1	Hydrocephalus and NeuroEndoscopy	Internal Cerebrospinal Fluid Shunt Failure: A Systematic Review and Meta-Analysis	Ali Hamza	Australia

Poster Number	Poster Session	Poster Group	Topic	Poster Title	Presenter	Country
PP-028	Poster Session I	Group 2	Hydrocephalus and NeuroEndoscopy	Retrospectively Predicting VP Shunt Failure in Pediatric Patients Using Natural Language Processing	Alice Woolard	United States
PP-029	Poster Session I	Group 2	Hydrocephalus and NeuroEndoscopy	Ventriculo-biliary shunt: an alternative treatment for peritoneal failure. Experience of a pediatric center in Rio de Janeiro	Alick Durão Moreira	Brazil
PP-030	Poster Session I	Group 2	Hydrocephalus and NeuroEndoscopy	Brainwashing for purulent ventriculitis using two external ventricular catheter	Ana Monize Ribeiro Fonseca	Brazil
PP-031	Poster Session I	Group 2	Hydrocephalus and NeuroEndoscopy	CSF Overshunting-Associated Myelopathy and narrow spinal canal.	Benicio Oton De Lima	Brazil
PP-032	Poster Session I	Group 2	Hydrocephalus and NeuroEndoscopy	The pre-pontine and tentorial block and their relevance in development and treatment of hydrocephalus: a descriptive anatomical series.	Carla Richetta	Israel
PP-033	Poster Session I	Group 2	Hydrocephalus and NeuroEndoscopy	Head Circumference and is not Associated with Ventricular Size Before 30 Weeks Intraventricular Hemorrhage of Prematurity	Eric M Thompson	United States
PP-034	Poster Session I	Group 2	Hydrocephalus and NeuroEndoscopy	Craniopharyngiomas: the role of transcortical transventricular monoportal endoscopic neurosurgery	Bassel Zebian	Italy
PP-035	Poster Session I	Group 2	Hydrocephalus and NeuroEndoscopy	Central Nervous System Coccidioidomycosis in Children: A Retrospective Case Series	Julia Devi Sharma	United States
PP-036	Poster Session I	Group 2	Hydrocephalus and NeuroEndoscopy	Early detection of infantile hydrocephalus: time to 'Get-A-Head'	Roisin Maeve Mcnicholas	United Kingdom
PP-038	Poster Session I	Group 2	Fetal Surgery	Training Model for the Fetal Myelomeningocele Correction with Multiportal Endoscopic Technique	Patricia Alessandra Dastoli	Brazil
PP-039	Poster Session I	Group 2	Monitoring in Neurosurgery	Intraoperative brain mapping to identify corticospinal projections during epilepsy surgery in patient with drug-resistant epilepsy	Hsin Hung Chen	Taiwan
PP-040	Poster Session I	Group 2	Monitoring in Neurosurgery	Intraoperative MRI and risk of speech impairment and cranial nerve deficits in children undergoing posterior fossa tumour surgery – A prospective multicenter study	Marianne Juhler	Denmark
PP-041	Poster Session I	Group 2	Monitoring in Neurosurgery	Development of virtual reality and ultra-realistic training models for retrosigmoid approach. Is it worth it?	Ricardo Santos De Oliveira	Brazil
PP-042	Poster Session I	Group 2	Monitoring in Neurosurgery	The value of motor evoked potentials in predicting the occurrence of postoperative motor deficits in children with intradural extramedullary spinal tumors: a single-center experience	Ryszard Sordyl	Poland
PP-043	Poster Session I	Group 2	Neonatal Neurosurgery	Single center strategy of Neonatal Neurosurgery - feasibility and safety evaluation	Gesa Cohrs	Germany
PP-044	Poster Session I	Group 2	Neonatal Neurosurgery	Cervical spine fusion in an 8-day-old infant with cervical vertebral dislocation sustained during birth	Harshal Shah	United States
PP-045	Poster Session I	Group 2	Neonatal Neurosurgery	Valerian Degeneration and Cerebral Palsy – Is there correlation to early Posterior Fossa Damage in Newborns and Premature Babies with Intracranial Bleed?	Liana Adani Beni	Israel
PP-046	Poster Session I	Group 2	Neonatal Neurosurgery	Unusual Neonatal Abscess – Early Neurosurgical treatment and Long term prognosis	Liana Adani Beni	Israel
PP-047	Poster Session I	Group 2	Neuro-Oncology	Pituitary Apoplexy in a girl: Case Report	Abraham Ibarra De La Torre	Mexico
PP-048	Poster Session I	Group 2	Neuro-Oncology	Interaction between professionals involved in the practice of Pediatric Neuro-Oncology in Latin America and the Caribbean	Adrian Caceres	Costa Rica
PP-049	Poster Session I	Group 2	Neuro-Oncology	Infants with central nervous system tumours - a twelve-year retrospective review (2011-2023)	Atul Tyagi	United Kingdom
PP-050	Poster Session I	Group 2	Neuro-Oncology	LIN28B expression in Diffuse Midline Glioma	Amanda M Saratsis	United States
PP-051	Poster Session I	Group 2	Neuro-Oncology	Optic Pathway Hypothalamic Gliomas: the role of endoscopic neurosurgery	Bassel Zebian	United Kingdom
PP-052	Poster Session I	Group 2	Neuro-Oncology	Hemorrhagic intracranial myeloid sarcoma: case report of a rare condition and literature review	Chin Lik Tan	Singapore
PP-053	Poster Session I	Group 2	Neuro-Oncology	Supraciliary Craniotomy for Anterior Cranial Fossa Pathology in Children	George Jallo	United States
PP-054	Poster Session I	Group 2	Neuro-Oncology	Minimally Invasive Parafascicular or Tubular Approach in Children	George Jallo	United States
PP-055	Poster Session I	Group 2	Neuro-Oncology	Hydrocephalus in children with central nervous system tumours - a ten-year analysis	Howra Ktayan	United Kingdom

Poster Number	Poster Session	Poster Group	Topic	Poster Title	Presenter	Country
PP-056	Poster Session I	Group 3	Neuro-Oncology	Paediatric Meningiomas – a single centre review over 16 years	Howra Ktayen	United Kingdom
PP-057	Poster Session I	Group 3	Neuro-Oncology	Paediatric Ependymoma: a single centre review over 20 years	Howra Ktayen	United Kingdom
PP-058	Poster Session I	Group 3	Neuro-Oncology	Surgical Treatment of Intracranial Germ Cell Tumors	Hsin Hung Chen	Taiwan
PP-059	Poster Session I	Group 3	Neuro-Oncology	Initial results using IOMR in pediatric tumor Neurosurgery indicate improved outcomes	Jane Skjoeth Rasmussen	Denmark
PP-060	Poster Session I	Group 3	Neuro-Oncology	2 step endoscope assisted approach for surgical treatment of a thoracolumbar dermoid cyst without occult dysraphism: case report	Javier Cuellar Hernandez	Mexico
PP-061	Poster Session I	Group 3	Neuro-Oncology	Hemispherotomy for medically refractory epilepsy in Long-Survivor of Congenital GBM	Jothy Kandasamy	United Kingdom
PP-062	Poster Session I	Group 3	Neuro-Oncology	Tumors of the Central Nervous System in the first year of life	Julio S Brossard Alejo	Cuba
PP-063	Poster Session I	Group 3	Neuro-Oncology	Assessment of the Milan Complexity Scale for prediction of postoperative morbidity in pediatric neuro-oncological surgery	Kasper Amund Henriksen	Denmark
PP-064	Poster Session I	Group 3	Neuro-Oncology	Morbidity following pediatric brain tumor surgery	Kasper Amund Henriksen	Denmark
PP-065	Poster Session I	Group 3	Neuro-Oncology	Effectiveness of endoscopic third ventriculostomy in the management of hydrocephalus secondary to pediatric posterior fossa tumors	Leopoldo Ferreira Furtado	Brazil
PP-066	Poster Session I	Group 3	Neuro-Oncology	Subtemporal approach for the biopsy of diffuse brainstem high grade gliomas. Our experience in an Argentinian center	Lucila Domecq Laplace	Argentina
PP-067	Poster Session I	Group 3	Neuro-Oncology	Survival Analysis and Prognostic Factors in Posterior Fossa Ependymomas in Children and Adolescents	Patricia Alessandra Dastoli	Brazil
PP-068	Poster Session I	Group 3	Neuro-Oncology	Surprisingly high frequency of pituitary stalk thickening in pediatric patients during COVID-19 pandemic in Chile	Maria Isabel Hernandez	Chile
PP-069	Poster Session I	Group 3	Neuro-Oncology	Paediatric Cystic Craniopharyngiomas: Can Imaging Features Predict Tumor Behavior and Assist Targeted Therapy?	Hamilton Matushita	Brazil
PP-070	Poster Session I	Group 3	Neuro-Oncology	Intracystic Targeted Therapy with Tocilizumab Can Be a Possible Treatment for Craniopharyngioma	Hamilton Matushita	Brazil
PP-071	Poster Session I	Group 3	Neuro-Oncology	Meningiomas in pediatric population: experience in a single institution	Mariela Cecilia Salerno	Argentina
PP-072	Poster Session I	Group 3	Neuro-Oncology	Posterior fossa ependymomas in children: A long-term single center experience	Pierre Aurélien Beuriat	France
PP-073	Poster Session I	Group 3	Neurotrauma/Critical Care	Leptomeningeal Cyst: Surgical Results in a Case Series	Abraham Ibarra De La Torre	Mexico
PP-074	Poster Session I	Group 3	Neurotrauma/Critical Care	Neurosurgical Trauma Due to Fall from Windows. A Retrospective Review from a Tertiary Care Paediatric Trauma Centre	Ajay Kumar Sinha	United Kingdom
PP-075	Poster Session I	Group 3	Neurotrauma/Critical Care	Epidural traumatic haematomas in childhood- monocentric experience	Alkim Demirci	Bulgaria
PP-076	Poster Session I	Group 3	Neurotrauma/Critical Care	The Association between Craniosynostosis and Valproate during Pregnancy: A Literature Review	Ana Monize Fonseca	Brazil
PP-077	Poster Session I	Group 3	Neurotrauma/Critical Care	Traumatic Encephalopathy Assessment and Tool Development in the Emergency Department (TREAT-ED): Study Protocol	Benjamin Hall	United Kingdom
PP-078	Poster Session I	Group 3	Neurotrauma/Critical Care	Prevalence of endocrinological alterations in patients with Traumatic Brain Injury	Maria Isabel Hernandez	Chile
PP-079	Poster Session I	Group 3	Neurotrauma/Critical Care	Clinical Course and Outcome of Pediatric BIG-1 Head Injuries	Marika Zwieneberg	United States
PP-080	Poster Session I	Group 3	Neurotrauma/Critical Care	Nonoperative Management for Post-traumatic Pediatric Epidural Hematomas: An Institutional Review of 115 Patients	Mark Souweidane	United States
PP-081	Poster Session I	Group 3	Neurotrauma/Critical Care	Characteristics and Clinical Outcomes of Pediatric Traumatic Brain Injury Patients in a Regional Brain and Spine Trauma Center in the Philippines from January 2021 to April 2023	Maurice Villaflores Bayhon	Philippines
PP-082	Poster Session I	Group 3	Neurotrauma/Critical Care	Penetrating Trauma by Sailfish Beak in Cervical Spine	Mayra Alejandra Arce Lozoya	Mexico

Poster Number	Poster Session	Poster Group	Topic	Poster Title	Presenter	Country
PP-083	Poster Session I	Group 4	Neurotrauma/Critical Care	Falcotentorial Subdural Empyema presenting as Preseptal Cellulitis	Nina Mallari Alvarez	Philippines
PP-084	Poster Session I	Group 4	Neurotrauma/Critical Care	ICP monitoring in shaken baby syndrome	Pierre Aurelien Beuriat	France
PP-085	Poster Session I	Group 4	Neurotrauma/Critical Care	Trends in Pediatric Gun Mortality	Rachana Tyagi	United States
PP-086	Poster Session I	Group 4	Neurotrauma/Critical Care	Neurologic alterations following electrical burns in children	Reneé María Lola Taveras Serpa	Dominican Republic
PP-087	Poster Session I	Group 4	Neurotrauma/Critical Care	Burst fractures of the skull in infants and small children-A warning based on 12 cases	Supriya Chauhan	India
PP-088	Poster Session I	Group 4	Neurotrauma/Critical Care	Implementation of Child Restraint System Law and Pediatric Traumatic Brain Injury in Taiwan	Shu Mei Chen	Taiwan
PP-089	Poster Session I	Group 4	Neurotrauma/Critical Care	Clinical predictors of significant intracranial lesions on Ct scan in paediatric patients with mild TBI-A 1year review	Ubong Okon Essien	Nigeria
PP-090	Poster Session I	Group 4	Other	Evaluating Magnetic resonance imaging findings of idiopathic intracranial hypertension with and without papilloedema at an Australian children's hospital - case series of 30 children	Aasheen Munshey	Australia
PP-091	Poster Session I	Group 4	Other	Automated Artificial Intelligence Evaluation of upper extremity function using smartphone video	Albert Tu	Canada
PP-093	Poster Session I	Group 4	Other	First case report of involvement of the central nervous system by cat-scratch disease (Bartonella henselae) in Peru	Deborah Maria Arevalo Barboza	Peru
PP-094	Poster Session I	Group 4	Other	Balamuthia mandrillaris encephalitis: A report of two cases	Denis Mutyaba	South Africa
PP-095	Poster Session I	Group 4	Other	Avoiding blood transfusions in Pediatric Neurosurgery according to parental autonomy: is it possible to reconcile technical and bioethical principles?	Eduardo Juca	Brazil
PP-096	Poster Session I	Group 4	Other	Intracranial empyema complicating sinusitis in children in the post-pandemic period: how to cope with the rising incidence?	Eduardo Jucá	Brazil
PP-097	Poster Session I	Group 4	Other	Frameless robotic-assisted stereotactic technique in pediatric brain pathologies: a single center experience	Gesa Cohrs	Germany
PP-098	Poster Session I	Group 4	Other	Pattern Recognition in GradCam-Based Focus Regions for Automatic Craniopharyngioma Distinguisher AI Model	Giovanni A. Castiglioni	Chile
PP-099	Poster Session I	Group 4	Other	Language Lateralization by resting fMRI in Pre-surgical Study Drug-Resistance Epilepsy in Chilean Pediatric Patients	Giovanni A. Castiglioni	Chile
PP-100	Poster Session I	Group 4	Other	Modification of Existing Head Circumference Charts for New Mexico Native American Children	Heather Spader	United States
PP-101	Poster Session I	Group 4	Other	Surgical Management of Intrathoracic Meningocele in a Patient with Neurofibromatosis Type 1 (NF-1): Case Report	Isabella Pereira Morais	Brazil
PP-102	Poster Session I	Group 4	Other	Intraparenchymal hemorrhage post snake bite. Case report	Ismael Jose Moreno	Ecuador
PP-103	Poster Session I	Group 4	Other	A Well-Check for Neurosurgery: Moving Towards an Understanding of Burnout in Our Specialty	Jeffrey Steven Raskin	United States
PP-104	Poster Session I	Group 4	Other	Diagnosis and Treatment of Carpal Tunnel Syndrome in Pediatric Patients with Mucopolysaccharidosis	Malte Ottenhausen	Germany
PP-105	Poster Session I	Group 4	Other	Nerve transfer in Erb-type lesions in obstetric brachial palsy: results in 90 operated cases	Ricardo De Amoreira Gepp	Brazil
PP-106	Poster Session I	Group 4	Other	Endoscopic guided Ommaya reservoir insertion for suprasellar arachnoid cyst causing childhood obesity, a technical nuance	Tareq Aljared	Saudi Arabia
PP-107	Poster Session I	Group 4	Other	Supraorbital keyhole craniotomy in pediatrics - same route for multiple neurosurgical pathologies	Tiago Paiva Cavalcante	Brazil
PP-108	Poster Session I	Group 4	Other	Preclinical Study for Gene therapy of MPSIIIB: Neurosurgical Skills	Timothée De Saint Denis	France
PP-109	Poster Session I	Group 4	Other	Pediatric endodermal cyst in the anterior cervical spinal cord treated by a posterior-only approach in a 20-month-old girl	Wei Ting Lee	Taiwan
PP-110	Poster Session I	Group 4	Other	Spinal Cord Infarction in Children. Difficulties In Diagnosis	Zainab Jallow	United States

Poster Number	Poster Session	Poster Group	Topic	Poster Title	Presenter	Country
PP-111	Poster Session II	Group 1	Cranio cervical Junction and Chiari	Insight to Chiari I malformation in patients with Cystic Fibrosis, a single centre series revision	Alison Wray	Australia
PP-112	Poster Session II	Group 1	Cranio cervical Junction and Chiari	Skull fixation with occipital condyle - C1 transarticular screw fixation in children with thin skull or prior suboccipital decompression: feasibility, operative technique, and outcomes	David F Bauer	United States
PP-113	Poster Session II	Group 1	Cranio cervical Junction and Chiari	Cranio cervical instability in syndromic craniofacial patients: 3 cases treated by craniaovertbral junction fixation and proposal of enlarged diagnostic protocol	Giovanna Paternoster	France
PP-114	Poster Session II	Group 1	Cranio cervical Junction and Chiari	Pseudoachondroplasia associated with os odontoideum and retro-odontoid ganglion: recommendations and literature review	Guirish A. Solanki	United Kingdom
PP-115	Poster Session II	Group 1	Cranio cervical Junction and Chiari	The use of Non-Invasive Halo System (NIHS) in Atlantoaxial rotatory subluxation / fixation in childhood (AARF)	Jothy Kandasamy	United Kingdom
PP-116	Poster Session II	Group 1	Cranio cervical Junction and Chiari	Traumatic occipito-cervical dislocation in children, case report and literature review	Martín Flores	Chile
PP-117	Poster Session II	Group 1	Cranio cervical Junction and Chiari	Surgery for Pediatric Craniovertebral Junction Disorders: a 20 Year-Experience Retrospective Analysis in a Chilean Neurosurgery Center	Osvaldo Koller	Chile
PP-118	Poster Session II	Group 1	Cranio cervical Junction and Chiari	Presyrinx state mimicking medulla oblongata tumors in pediatric patients with Chiari malformation type I	Sebastian Jaimovich	Argentina
PP-119	Poster Session II	Group 1	Craniofacial	Incidence of pediatric neurosurgical malformations in Goiás	Ana Monize Fonseca	Brazil
PP-120	Poster Session II	Group 1	Craniofacial	Postoperative complications and re-operations in sagittal synostosis patients, Oulu experience	Anja Svalina	Finland
PP-121	Poster Session II	Group 1	Craniofacial	Twins and Scafocephaly: Case Report	Artur Henrique Galvao Bruno Da Cunha	Brazil
PP-122	Poster Session II	Group 1	Craniofacial	Custom-made implant in porous peek with hydroxyapatite for pediatric cranioplasty. case report	Catalina Isaza	Colombia
PP-123	Poster Session II	Group 1	Craniofacial	Autologous cranioplasty with patients own bone, to repair a post-trauma cranial defect. case report and comparison with other techniques	Cristián Valdéz	Chile
PP-124	Poster Session II	Group 1	Craniofacial	Acalvaria: Case report on a rare congenital skull abnormality	Denis Mutyaba	South Africa
PP-125	Poster Session II	Group 1	Craniofacial	Advantages of Osteoblastic Telescopic Spiral Technique for Craniosynostosis Correction	Dunia Patricia Quiroga Angulo	Colombia
PP-126	Poster Session II	Group 1	Craniofacial	Challenges in the management of aplasia cutis cases with large defects: a case report	Fernanda Gonçalves De Andrade	Brazil
PP-127	Poster Session II	Group 1	Craniofacial	Endoscopic-assisted suturectomy without postoperative helmets for treating non syndromic synostosis	Garcia Guillermo	Mexico
PP-128	Poster Session II	Group 1	Craniofacial	Treatment of Sagittal Synostosis in children younger than 6 months of age. Long-term morphological results	Hamilton Matushita	Brazil
PP-129	Poster Session II	Group 1	Craniofacial	Surgical treatment of lambdoid craniosynostosis: Lambdoid and sagittal suturectomy with parietal telescoping spiral cuts	Horus Martinez Maldonado	Mexico
PP-130	Poster Session II	Group 1	Craniofacial	Use of Dexmedetomidine in craniofacial surgery patients. Experience in one center	Jose Pablo Fernandez	Chile
PP-131	Poster Session II	Group 1	Craniofacial	Quantitative analysis of trigonocephaly: a literature review	Leyzeane Marques Do Nascimento	Brazil
PP-132	Poster Session II	Group 1	Craniofacial	Expansive cranioplasty for the treatment of pansynostosis - report of two cases	Leyzeane Marques Do Nascimento	Brazil
PP-133	Poster Session II	Group 1	Craniofacial	Biparietal transposition in surgical treatment of scaphocephaly in children older than two years of age. 20-year institutional experience	Luz Monserrat Almaguer Ascencio	Mexico
PP-134	Poster Session II	Group 1	Cranio cervical Junction and Chiari	Fronto-orbital advancement for the management of Chiari type I: A case report	Rocío Gómez Verges	Chile
PP-135	Poster Session II	Group 1	Craniofacial	A 360-degree approach to syndromic faciocraniosynostoses- An early experience with a functional concept	Suhas Udayakumaran	India
PP-136	Poster Session II	Group 1	Craniofacial	Problem mapping in craniosynostoses in an institutional cohort, using our previously published work on nomenclature	Suhas Udayakumaran	India
PP-137	Poster Session II	Group 2	Craniofacial	An innovative bioink for targeted drug delivery and gene modulation for personalized paediatric cranioplastic surgery	Wanda Lattanzi	Italy

Poster Number	Poster Session	Poster Group	Topic	Poster Title	Presenter	Country
PP-138	Poster Session II	Group 2	Craniofacial	Planificación Quirúrgica mediante duplicación 3D para Cirugía en Craneosinostosis	Yosimar Salomón Coasaca Tito	Peru
PP-139	Poster Session II	Group 2	Dysraphism	Enhancing time of transition to adult medicine in congenital disabled youth	Cordula Scherer	Switzerland
PP-140	Poster Session II	Group 2	Dysraphism	Pericardium skin graft in myelomeningocele, technical note	Diego Fernando Velasco Sanchez	Argentina
PP-141	Poster Session II	Group 2	Dysraphism	Lipomas of the Conus Medullaris in Children - A Systematic Review	Dominic Thompson	United Kingdom
PP-142	Poster Session II	Group 2	Dysraphism	Intradural spinal abscesses in undiagnosed spinal dysraphism – two case reports	Atul Tyagi	United Kingdom
PP-143	Poster Session II	Group 2	Dysraphism	Occipital Encephalocele: Review of six Operated Cases.	Gustavo Gonzalez Torrealba	Chile
PP-144	Poster Session II	Group 2	Dysraphism	Nonterminal Cervical Myelocystocele: a rare presentation of spinal dysraphism. A case report	Ismael Jose Moreno	Ecuador
PP-145	Poster Session II	Group 2	Dysraphism	Prevalence of epilepsy and cerebral anomalies in meningomyelocele	Jochem Spoor	Netherlands
PP-146	Poster Session II	Group 2	Dysraphism	Rapid MRI for tailored approach to selective dorsal rhizotomy	John Paul Andrews	United States
PP-148	Poster Session II	Group 2	Dysraphism	Timing of Spina Bifida Myelomeningocele Closure Surgery for Babies Operated at a Tertiary Care Hospital in Addis Ababa, Ethiopia	Kibruyisfaw Zewdie	Ethiopia
PP-149	Poster Session II	Group 2	Dysraphism	Terminal Myelocystocele associated with dermal sinus tract and intramedullary dermoid cyst- Case Report	Leyzeane Marques Do Nascimento	Brazil
PP-150	Poster Session II	Group 2	Dysraphism	Vestigial Tail: A Report Of Five Cases	Mayra Alejandra Arce Lozoya	Mexico
PP-151	Poster Session II	Group 2	Dysraphism	Occipital dermal neuroglial heterotopia with vascular connection to torcula – a rare congenital scalp lesion	Nishchit Hegde	United Kingdom
PP-152	Poster Session II	Group 2	Dysraphism	Long-term results of complex treatment of 50 patients with caudal regression syndrome	Olga M Sergeenko	Russia
PP-153	Poster Session II	Group 2	Dysraphism	Spectrum of caudal regression in open neural tube defects	Olga M Sergeenko	Russia
PP-154	Poster Session II	Group 2	Dysraphism	Different forms of segmental spinal dysgenesis	Olga M Sergeenko	Russia
PP-155	Poster Session II	Group 2	Dysraphism	Closed neural tube defects in caudal regression syndrome	Olga M Sergeenko	Russia
PP-156	Poster Session II	Group 2	Dysraphism	Retrospective longitudinal bi-centric study of posterior encephalocele from antenatal management to post-surgical follow-up	Pierre Aurélien Beuriat	France
PP-157	Poster Session II	Group 2	Dysraphism	Increase of CNS malformations during COVID pandemic in a low income latinamerican country. Just a mere coincidence?	Reneé María Lola Taveras Serpa	Dominican Republic
PP-158	Poster Session II	Group 2	Dysraphism	Use of amniotic membrane as tissular draft for the repair of myelomeningocele	Reneé María Lola Taveras Serpa	Dominican Republic
PP-159	Poster Session II	Group 2	Dysraphism	Incidental Finding of an Ependymoma in a Myelomeningocele Patient: A case report	Sergey Abeshaus	Israel
PP-160	Poster Session II	Group 2	Dysraphism	Early prognosis of children diagnosed prenatally with MyeLDM	Timothée De Saint Denis	France
PP-161	Poster Session II	Group 2	Dysraphism	Asymetry of hemicords: radiological factor for children's prognosis with split cord malformation.	Timothée De Saint Denis	France
PP-162	Poster Session II	Group 2	Dysraphism	Antibiotic Prophylaxis Pre-operatively in Postnatally Closed Myelomeningoceles: A Review of Practice	Victoria Collins	United Kingdom
PP-163	Poster Session II	Group 2	Dysraphism	Transition of Paediatric Patients with Spinal Dysraphism into Adult Care: How Can We Make the Transition Process Better?	Victoria Collins	United Kingdom
PP-164	Poster Session II	Group 3	Dysraphism	Successful Neurosurgical Separation of Pyopagus conjoined symmetrical twins conjoined on a single fatty filum terminale: case report	Wael Saleh Alfaqaawy	Saudi Arabia
PP-167	Poster Session II	Group 3	Functional	Deep brain stimulation in a pediatric patient with GNAO1 mutation associated - dystonia	Francisco Rubilar	Chile

Poster Number	Poster Session	Poster Group	Topic	Poster Title	Presenter	Country
PP-168	Poster Session II	Group 3	Functional	Navigated radiofrequency ablation peripheral rhizotomy for lumbosacral hypertonia in a non-ambulatory patient with spinal fusion: Indications, Surgical Techniques, and Lessons Learned	Jeffrey Steven Raskin	United States
PP-169	Poster Session II	Group 3	Functional	Endoscopic Fenestration of an Intraspinial Arachnoid Cyst in an Infant	Jeffrey Steven Raskin	United States
PP-170	Poster Session II	Group 3	Functional	Towards better definition of a resection strategy in pediatric LEATs causing refractory epilepsy	Karl Roessler	Austria
PP-171	Poster Session II	Group 3	Functional	Long-term outcomes and health related quality of life (HRQOL) after hemispherectomy in Peruvian children with refractory epilepsy	Marco Antonio Mejía Tupa	Peru
PP-172	Poster Session II	Group 3	Functional	Selective Dorsal Rhizotomy for Spasticity: does the post-operative rehabilitation protocol change according to the functional classification?	Renata Viana Brigido De Moura Juca	Brazil
PP-173	Poster Session II	Group 3	Functional	Lumbosacral Drezotomy for Pain Control in Children with Cerebral Palsy and Painful Hip Dislocation	Victor Adrian Muñoz	Argentina
PP-174	Poster Session II	Group 3	Functional	Selective Dorsal Rhizotomy: Analysis of two rootlet sectioning techniques	Yamila Basilotta Márquez	Argentina
PP-175	Poster Session II	Group 3	Hydrocephalus and NeuroEndoscopy	Endoscopic fenestration for deeply located arachnoid cyst	Jun Kyu Hwang	South Korea
PP-176	Poster Session II	Group 3	Hydrocephalus and NeuroEndoscopy	Arithmetic processing in children after hydrocephalus treatment by neuroendoscopy or shunt and the correlation with ventricular size and brain deformity	Leopoldo Ferreira Furtado	Brazil
PP-177	Poster Session II	Group 3	Hydrocephalus and NeuroEndoscopy	Towards a more Structured Approach to Evaluate Suspected Shunt Independency in Children with Hydrocephalus – A Single Center Analysis	Malte Ottenhausen	Germany
PP-178	Poster Session II	Group 3	Hydrocephalus and NeuroEndoscopy	Abdominal pseudocysts – A cause of peripheral dysfunction in ventriculoperitoneal shunts in children	Malte Ottenhausen	Germany
PP-179	Poster Session II	Group 3	Hydrocephalus and NeuroEndoscopy	Persistent visual hallucinations in a pediatric patient with a cavum septum pellucidum - cavum septum vergae cyst: Case report and literature review	Maria Carolina Portela Fernandez	Brazil
PP-180	Poster Session II	Group 3	Hydrocephalus and NeuroEndoscopy	The challenge of Slit Ventricule Syndrome (SVS) in children: a new proposal	Rodrigo Akira Watanabe	Brazil
PP-181	Poster Session II	Group 3	Hydrocephalus and NeuroEndoscopy	Role of endoscopic third ventriculostomy in the management of obstructive hydrocephalus in pineal tumor patients	Shih Hung Yang	Taiwan
PP-182	Poster Session II	Group 3	Hydrocephalus and NeuroEndoscopy	Multicystic Encephalomalacia in Hydrocephalus Patients Treated with Ventriculoperitoneal Shunting: Forgotten, but not Gone	Sina Zoghi	Iran
PP-183	Poster Session II	Group 3	Hydrocephalus and NeuroEndoscopy	Shunt-Infections-Excluding (SHINE) protocol- perioperative protocol for prevention of shunt infections in pediatric patients with hydrocephalus	Toni Dimitrov Kondev	Bulgaria
PP-184	Poster Session II	Group 3	Hydrocephalus and NeuroEndoscopy	Ommaya Reservoir Tapping Protocol in the Management of Hydrocephalus – A Preliminary Study	William Winardi	Taiwan
PP-185	Poster Session II	Group 3	Hydrocephalus and NeuroEndoscopy	Flexible neuroendoscopic complications in the pediatric population at the Hospital de Especialidades del Niño y la Mujer	Yosimar Salomón Coasaca Tito	Peru
PP-186	Poster Session II	Group 3	Neuro-Oncology	Infratentate tubular approach to the fourth ventricle with tubular retraction system for WNT classic medulloblastoma, results after 1 year	José Javier Cuellar Hernández	Mexico
PP-187	Poster Session II	Group 3	Neuro-Oncology	Impact of corticospinal tractography integrated navigation for lesions surgery at the edge of motor area deficit in pediatric patients	Kevin Fernando Venegas	Belarus
PP-188	Poster Session II	Group 3	Neuro-Oncology	Intra-operative MRI in paediatric neurosurgery: a systematic review	Kristian Aquilina	United Kingdom
PP-189	Poster Session II	Group 3	Neuro-Oncology	Clinicopathologic features of MN1-altered brain tumors in pediatric patients	Mohammed Iqbal	United States
PP-190	Poster Session II	Group 3	Neuro-Oncology	Application of Drug Testing Platforms in Circulating Tumor Cells and Validation of a Patient-Derived Xenograft Mouse Model in Patient with Primary Intracranial Ependymomas with Extraneural Metastases	Muh Lii Liang	Taiwan
PP-191	Poster Session II	Group 4	Neuro-Oncology	Surgical Management of Optic Pathway / Hypothalamic Gliomas (OPHG): A Single Centre 16 Year Retrospective Review	Chloe Gelder	United Kingdom
PP-192	Poster Session II	Group 4	Neuro-Oncology	Craniopharyngiomas in children: where is the pendulum of the surgical resection. Our consideration with a recent series of 26 patients	Pierre Aurélien Beuriat	France
PP-193	Poster Session II	Group 4	Neuro-Oncology	Development of a Prediction Model for Tracheostomy Requirement After Surgical Resection of Medulloblastoma in Children	Sina Zoghi	Iran
PP-194	Poster Session II	Group 4	Neuro-Oncology	Calvarial aneurysmal bone cyst in an infant treated with doxycycline-human albumin suspension: Case report and review of literature	Stephanie Suyhogo	Philippines

Poster Number	Poster Session	Poster Group	Topic	Poster Title	Presenter	Country
PP-197	Poster Session II	Group 4	Neuro-Oncology	Eyebrow incision and supraorbital craniotomy approach to orbital and frontobasal lesions	Ulrich Wilhelm Thomale	Germany
PP-198	Poster Session II	Group 4	Neuro-Oncology	Frontal transbasal approach in pediatric craniopharyngioma	Vicente Gonzalez Carranza	Mexico
PP-199	Poster Session II	Group 4	Neuro-Oncology	Spinal Schwannomatosis: A case report	Wael Saleh Alfaqaawy	Saudi Arabia
PP-200	Poster Session II	Group 4	Neuro-Oncology	Three different types of ectopic recurrences of craniopharyngioma in pediatric patients: Case series and review of the literature	Yamila Basilotta	Argentina
PP-201	Poster Session II	Group 4	Neuro-Oncology	Surgical Outcome of Medulloblastoma in Ethiopia	Yemisirach Bizuneh Akililu	Ethiopia
PP-202	Poster Session II	Group 4	Neuro-Oncology	Outcomes of paediatric tumours of central nervous system in China: a report of the first nationwide registry CNOG-MC001	Yipeng Han	China
PP-203	Poster Session II	Group 4	Neuro-Oncology	A Choroid plexus papilloma in fourth ventricle with drop metastasis to dura sac at sacrum level: a case report and review of literature	Yishan Yang	Taiwan
PP-205	Poster Session II	Group 4	Vascular	Pediatric Brain Aneurysms: A Review Of 1458 Brain MR Angiograms	Adisson Nostradamous Fortunel	United States
PP-206	Poster Session II	Group 4	Vascular	Management of cerebral arteriovenous malformations of vein of Galen	Carmen Yuriko Villarreal	Peru
PP-207	Poster Session II	Group 4	Vascular	Administration of Fibrinolytic Agent during Intraventricular Endoscopic Lavage in Hydrocephalus Children with IVH: A Case Based Review	Gembong Satria Mahardhika	Indonesia
PP-208	Poster Session II	Group 4	Vascular	Flow Diverter stenting for Intracranial Aneurysms in the Pediatric Population: Two Case Reports	Hirad Hedayat	United States
PP-209	Poster Session II	Group 4	Vascular	Stereotactic radiosurgery prior to microsurgery in a pediatric patient with unruptured high grade arteriovenous malformation - Case report and literature review	Javier Trincado	Chile
PP-210	Poster Session II	Group 4	Vascular	Ruptured intracranial aneurysm in 33 day old infant	Jose Antonio Cenzano Ramos	Peru
PP-211	Poster Session II	Group 4	Vascular	Moyamoya syndrome: Cerebral revascularization with different techniques in a patient with Down syndrome	Jose Antonio Cenzano Ramos	Peru
PP-212	Poster Session II	Group 4	Vascular	Case report of a female 8 months old presentation of intracranial hemorrhage associated with a ruptured cerebral aneurysm and middle cerebral artery stenosis result of endovascular management	Jose Cortes Cardenas	Mexico
PP-213	Poster Session II	Group 4	Vascular	Use of the Gamma Knife for the management of arteriovenous malformations in the pediatric population. Experience in a Hospital in Colombia	Juliana Paola Mendoza Mantilla	Colombia
PP-214	Poster Session II	Group 4	Vascular	Encephaloduroarteriosynangiosis (EDAS) for Moya-Moya in Pediatric Patients: a Single Institution Experience	Marco Ruiz	Chile
PP-215	Poster Session II	Group 4	Vascular	Spinal arteriovenous malformation in a paediatric patient: diagnostic and therapeutic challenge. Case report	Maria Eugenia Badaloni	Argentina
PP-216	Poster Session II	Group 4	Vascular	Spontaneous bilateral extradural hematoma in sickle cell disease case report and literature review	Mariam Hamed Allehaibi	Saudi Arabia
PP-217	Poster Session II	Group 4	Vascular	Spinal arteriovenous malformation in an infant	Pei Yu Yeh	Taiwan
PP-218	Poster Session II	Group 4	Vascular	Stroke in Sickle Cell Revascularization Surgery Survey: Indications for Revascularization in Pediatric Patients with Sickle Cell Disease and Cerebral Vasculopathy	Philipp Aldana	United States
PP-219	Poster Session II	Group 4	Vascular	Moyamoya in pediatrics: experience and recommendations of the multidisciplinary group at Garrahan Hospital	Sebastián Jaimovich	Argentina
PP-220	Poster Session II	Group 4	Hydrocephalus and NeuroEndoscopy	Ventricular Collapse Syndrome in Hydrocephalus	Zorinel Adames Ortiz	Dominican Republic
